BRAND STORY

Our journey began with a mission to empower individuals by giving them control over their data. Today, we have evolved into a cutting-edge platform that fosters trust, transparency, and personalized experiences between customers, developers, and brands.

VISION

To build an ethical, consensual, and mutually beneficial data-sharing world that builds trust among users, developers, and brands

MISSION

Empower people to unlock value from their personal data

Transparent, Secure, and Private platform for sharing data with trusted partners and AI agents

HUSHH MECHANISM

Zero-Party Data   Ethical Data Practices   Powered By Consent
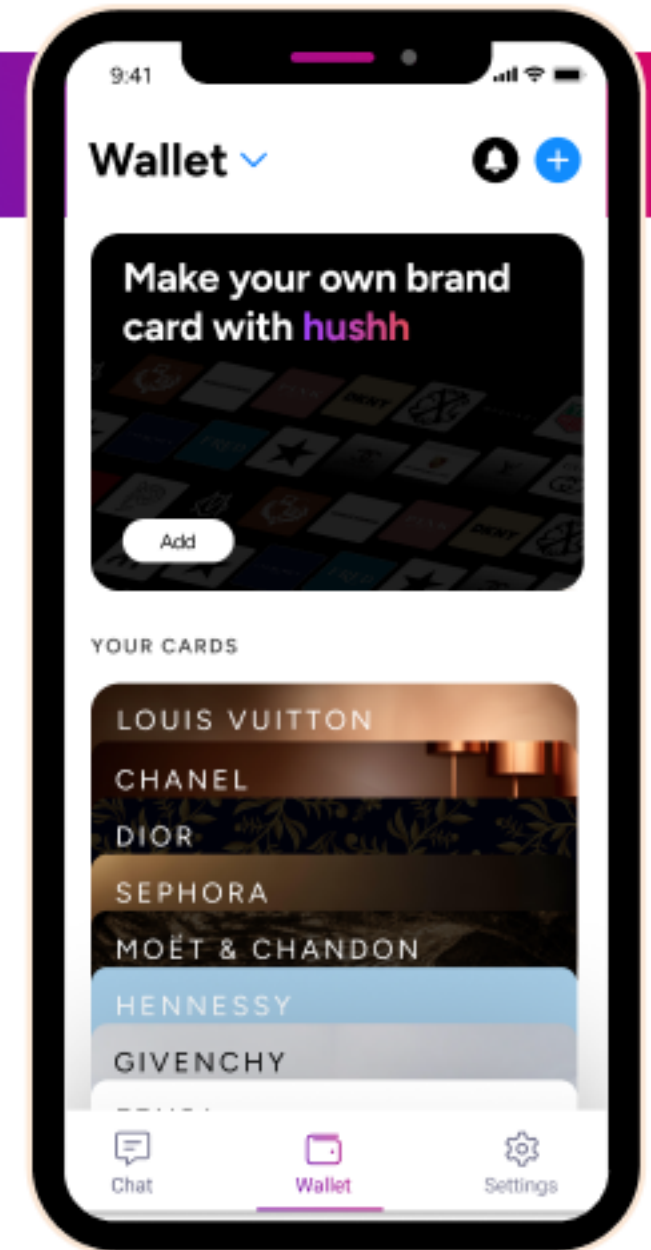

Data Autonomy   Promoting Data Equity

Consent-Driven Excellence

HUSHH WALLET

Unlock the power of your data

Your Personal Data, Your Powerhouse

Imagine a world where your data works for you, not against you. Where your interactions paints a detailed picture of your unique self, accessible only to those you trust. Hushh Wallet makes this a reality by enabling you to collect, organize, manage, share, and monetize your data, creating value from your digital identity and empowering you to reap the rewards it holds.

SCATTERED DATA, UNIFIED IDENTITY

Phone data

Photos, audio notes, receipts, e-mail, etc.

Data companies

Google, Apple, Amazon, Facebook, Instagram, YouTube, LinkedIn, etc.
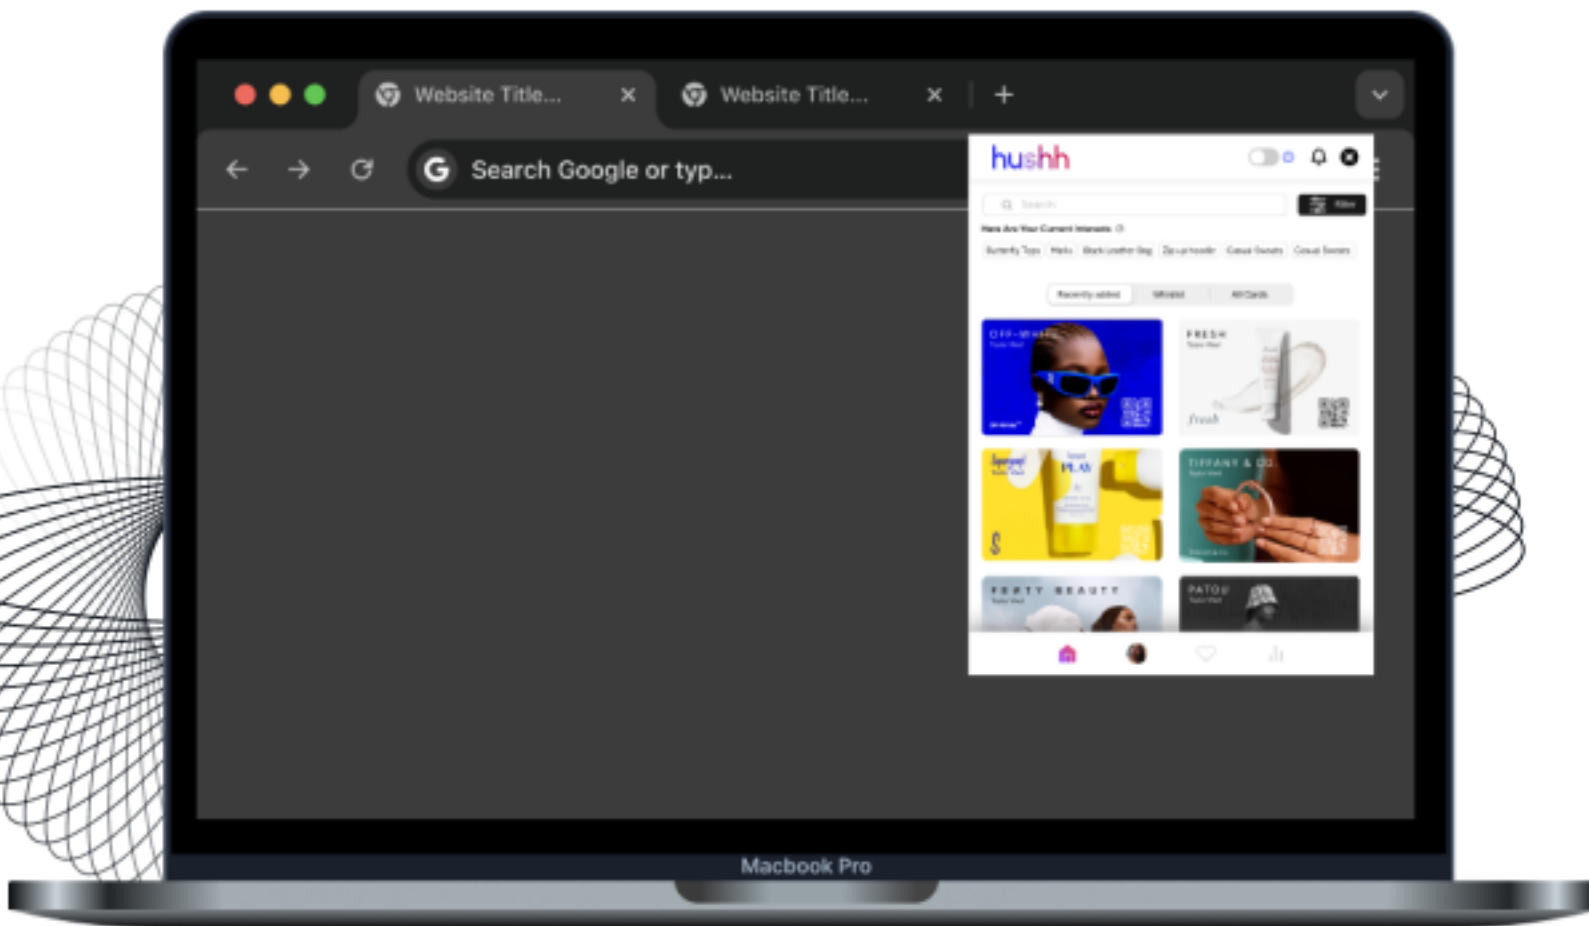

Shopping brands

Online e-commerce sites, apps, and offline receipts.

HUSHH BROWSER COMPANION

Control Your Digital Footprint: Introducing Hushh, the Browser Companion That Empowers You
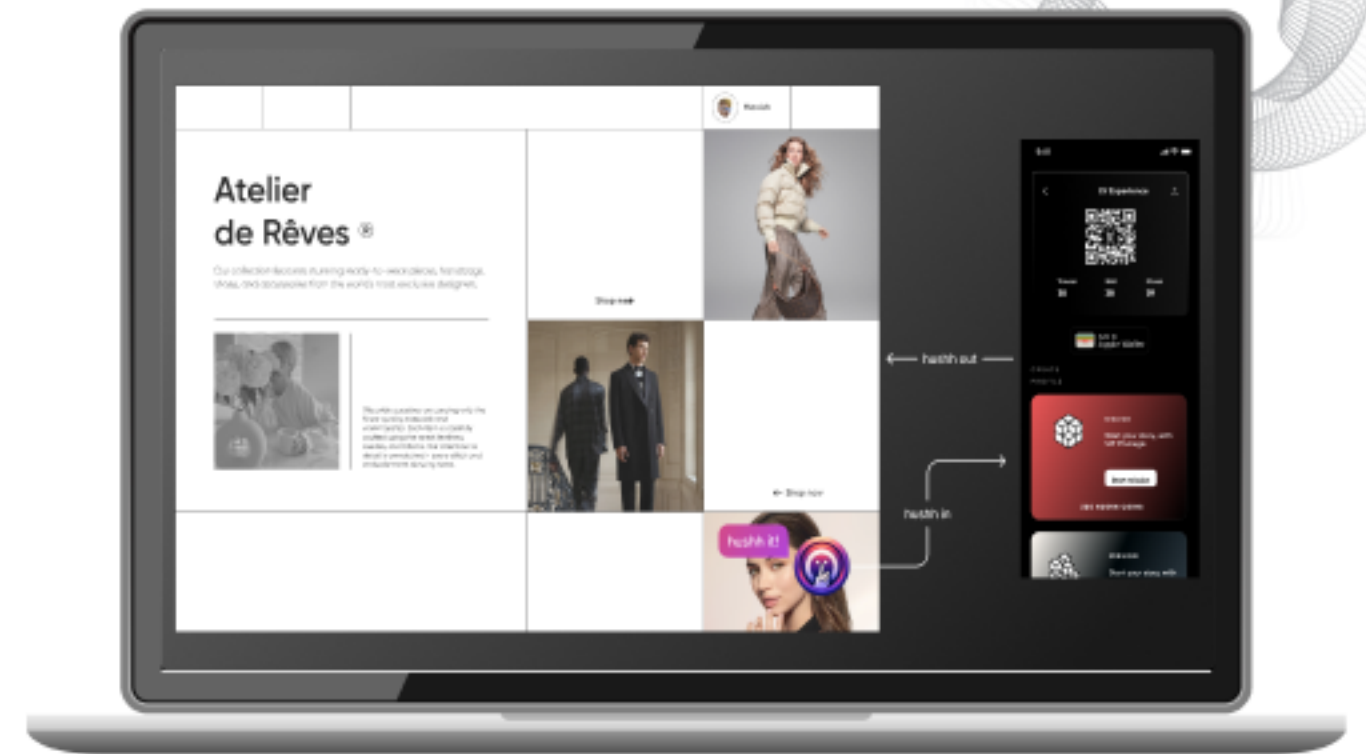

Every click, scroll, and search query leaves a trail of your identity, exploited by third-party organizations for targeted advertising. With Hushh, the power is back in your hands. Collect your web activity and preferences to strengthen your digital identity and enjoy the best personalization.

HUSHH BUTTON

Unlock Seamless Personalization for Both Brands & Customers

Imagine a world where shopping feels effortless and tailored just for you. Introducing the Hushh Button, a powerful plugin that bridges the gap between your Hushh Wallet and your favorite brands, providing effortless ways to share your data and create value.

HUSHH DEVELOPER APIS

Enabling a secure, trusted, and incentivized way of relaying valuable personal information from customers.

Revolutionize your data game with Hushh Developer APIs! Tailored for businesses and organizations of all stripes, our APIs empower YOUR developers to seamlessly integrate customers' data into CRM systems and applications. Picture this: a new era of data driven excellence, where developers get consent driven, first-hand customer data and let personalized services take the center stage for their brand.

Because in the world of luxury retail, the future is personalized, and your customers deserve nothing less!

WHERE DO WE GET OUR DATA FROM

Users have full authority over the data they choose to share. Data syncing to the cloud only occurs with the user's explicit consent. Our API's adhere to GDPR compliance standards

HUSHH VIBE SEARCH

Enter a World made for You

Experience powerful, personalized search results with Vibe Search. By truly understanding you, Vibe creates value with curated, accurate, and personalized results. Its multi-layer AI architecture finds exactly what you want.Explore the capabilities of Vibe Search in the Vibe Search web app. Discover your vibe in luxury fashion brands like Louis Vuitton, Loewe, Chopard, Chanel, Balenciaga, and more. Even if you don't know the exact name or where to look, simply upload a picture of anything you like, and Vibe Search will do the rest.
